

Body Part	Reason for Exam	Coverage	Prep?	Comments	Procedure Name	CPT
ABDOMEN	Abdominal, flank, back, RUQ pain Abdomen trauma, nausea, vomiting, Abnormal LFT's, jaundice, possible abdominal mass or organomegaly, metastatic disease, suspect congenital abnormalities	Liver, biliary system, GB kidneys, pancreas, spleen aorta, IVC	YES NPO 8 hours		US ABDOMEN COMPLETE	76700
	r/o hernia, superficial palpable lump, pyloric stenosis	Single quadrant of interest, follow up to prior exam	NO	Indicate quadrant, or location of superficial palpable lump.	US ABDOMEN LIMITED	76705
	Pulsatile Abdominal mass, F/U known AAA, family Hx of AAA	Aorta	YES NPO 8 hours		US AORTA LIMITED	76770
	One time aorta screening	Aorta	YES NPO 8 hours		AAA SCREENING	76706
	Abn. Creatinin, flank pain, hematuria, suspicion of kidney stones/pyelonephritis, hydronephrosis, bladder mass Chronic Kidney disease (CKD), Abnormal BUN	Kidneys, bladder, ureters	YES 24 oz. of water prior to appt.	Finish drinking water 1/2 hour prior to appt. time. Do not empty bladder.	US RENAL	76770
	HTN, Abdominal bruit	renal arteries, renal vein kidneys	YES 24 oz. water, NPO 8 hours	Finish drinking water 1/2 hour prior to appt. time. Do not empty bladder.	RENAL ARTERY DUPLEX	93975
	Portal HTN, abdominal varices, cirrhosis	Portal veins, hepatic veins, hepatic artery	YES NPO 8 hours		VAS ABDOMEN DUPLEX	
					VAS PORTO HEPATIC DUPLEX	
	Evaluate for stenosis of shunt	shunt, IVC, Portal vein	YES NPO 8 hours		VAS TIPS	
	Evaluate for rejection, abnormal labs	transplant kidney, artery, vein and native kidneys	NO		US RENAL TRANSPLANT	76776
PELVIS	Pelvic pain, abnormal bleeding, follow up mass seen on prior imaging, evaluation of ovarian cysts/mass, uterine fibroids, adnexal mass, endometrial abnormality, infertility IUD check	Uterus, ovaries, adnexal spaces	YES 32 oz. of water. Finish 1 hour prior to appt.	Complete transabdominal and transvaginal performed. Finish drinking water 1 hour prior to appt.; Do not empty bladder.	US PELVIS WITH TRANSVAGINAL	76856 76830
	Pelvic pain, follow up mass seen on prior imaging, evaluation of ovarian cysts, or adnexal mass.	Uterus, ovaries, adnexal spaces	YES 32 oz. of water. Finish 1 hour prior to appt.	Transabdominal only. For pediatric patients or who decline the transvaginal. Limited evaluation of endometrium. Finish drinking water 1 hour prior to appt. Do not empty bladder.	US PELVIS TRANSABDOMINAL ONLY	76856
	Abnormal bleeding	Uterus, ovaries, adnexal spaces	NO	Limited evaluation of the female pelvis. Intended for emergency use.	US NON OB TRANSVAGINAL	76830
	Abnormal bleeding, infertility, abnormal prior imaging of endometrium Hx of miscarriages, congenital abnormalities	Endometrium	YES 32 oz. of water. Finish 1 hour prior to appt	Pelvis w Transvaginal sono required within 3 mos. prior. Exam performed between day 7-10 of menses. Arrival 1 hour prior to appointment for pregnancy test.	US SONOHYSTOGRAM	76831 58340

SCROTUM/ TESTICLES	Palpable mass, pain, swelling, redness, symptoms of torsion, abscess, undescended testes, infertility	Scrotum, testicles, epididymis	NO		US SCROTAL or US TESTICULAR	76870
EXTREMITY	Lump, subcutaneous cyst, abscess, Baker's cyst, suspicion of foreign body	Targeted check of specific palpable lump of any extremity	NO	Must indicate specific body part and diagnosis in comments to trigger correct protocol.	US EXTREMITY NON VASCULAR RIGHT	76882
					US EXTREMITY NON VASCULAR LEFT	
	Suspicion of DVT, redness, pain, swelling, positive Homan's sign, positive D-dimer, extremity circumference discrepancy follow up to a known DVT known PE (pulmonary embolism)	Deep veins.	NO		US LOWER EXTREMITY VENOUS BILATERAL	93970
					US UPPER EXTREMITY VENOUS BILATERAL	
					US LOWER EXTREMITY VENOUS RIGHT	93971
					US LOWER EXTREMITY VENOUS LEFT	
					US UPPER EXTREMITY VENOUS RIGHT	
					US UPPER EXTREMITY VENOUS LEFT	
	Pain, diabetes, diminished or absent pulse Suspect arterial disease	Subclavian, axillary, and brachial arteries	NO		US UPPER EXTREMITY ARTERIES BILATERAL	93930
					US UPPER EXTREMITY ARTERIES RIGHT	93931
					US UPPER EXTREMITY ARTERIES LEFT	
	Rest pain, claudication, non-healing ulcers, diabetes, suspect arterial disease	External, common femoral, superficial femoral, popliteal art.	NO		US LOWER EXTREMITY ARTERIES BILATERAL	93925
					US LOWER EXTREMITY ARTERIES RIGHT	93926
					US LOWER EXTREMITY ARTERIES LEFT	

Body Part	Reason for Exam	Coverage	Prep?	Comments	Procedure Name	CPT
NECK	Palpable mass, swelling of the neck, goiter, abnormal labs, abnormality seen on other imaging study, Follow up	Thyroid and surrounding soft tissue.	NO		US THYROID	76536
	Palpable mass, swelling of the neck Follow up, abnormal labs, abnormality seen of other imaging study	Parotid gland, palpable mass.	NO	Need to specify location.	US HEAD NECK SOFT TISSUE	
	Evaluate for stenosis, Bruit, Hx of stroke CAD, HTN, smoker, pulsatile neck mass, trauma, dizziness, amaurosis fugax, follow up, TIA	Carotid, subclavian and vertebral arteries.	NO		US Carotid Bilateral	93880
OB	Evaluation of first trimester pregnancy, Dating, bleeding, suspect ectopic	Uterus, fetus, gestational sac, ovaries, adnexal spaces	YES Drink 32 oz. of water. Finish 1 hour prior to appt.	Finish drinking water 1 hour prior to appt.; Do not empty bladder.	US OB < 14 WEEKS W TRANSVAGINAL	76817 76801
	Evaluation of second trimester pregnancy, dates, fetal anatomy survey, size, placenta, fluid, and cervix. Routine Survey.	Uterus, cervix, fetus, adnexal spaces.	YES Drink 16 oz. of water. Finish 1 hour prior to appt.	Complete OB scan for anatomy, size, and dates. Routine survey is performed at 20 weeks. Finish drinking water 1 hour prior to appt. Do not empty bladder.	US OB > 14 WEEKS SINGLE OF FIRST GESTATION	76805
	1 or 2 specific concerns such as: Fetal size/age or AFI or Targeted anatomy or bleeding or IUGR or SROM	Very specific area of concern.	YES Drink 16 oz. of water. Finish 1 hour prior to appt.	Finish drinking 1 hour prior to appt. Enter specific indications in comments section. Only 1 or 2 specific concerns. Do not empty bladder.	US OB LIMITED	76815
	1 or 2 specific concerns for a patient who had a survey. Typically performed following a survey to evaluate anatomy not previous seen due to fetal position or early gestational age.	Limited to the portions of a complete survey that could not be seen previously.	NO	Enter specific indications in comments section. Prior images and reports must be present at time of scan. If not available entire survey may be repeated.	US OB TRANSABDOMINAL FOLLOW UP	76816
	Checks fetal well being.	Fetal tone, fetal movement, amniotic fluid and fetal breathing	NO		US FETAL BIOPHYS PROF WO NON-STRESS TEST	76819
	Evaluation of first trimester pregnancy, cervix length	Uterus, fetus, gestational sac, ovaries, adnexal spaces	NO	Cervix length only	US OB TRANSVAGINAL	76817
INFANT	Evaluate for hip dysplasia (DDH), breech, hip clicks, foot abnormality, Monitoring of treatment, Family Hx DDH	Infant hips	NO	Performed on infants 6 weeks old.	US INFANT HIPS	76885
	Dimple, uneven buttocks, palpable lump, R/O tethered cord	Infant spine	NO	Only performed up to the age of 3 months.	US SPINAL CANAL INFANT	76800
	Increased head circumference, follow up to previous imaging ventricular dilation, congenital abnormalities, determine presence or absence of hemorrhage	Infant brain	NO	Must have open fontanelle to perform exam.	US NEONATAL CRANIAL	76506

Body Part	Reason for Exam	Coverage	Prep?	Comments	Procedure Name	CPT
CHEST	Palpable lump on chest or upper back pleural effusion	Area of concern	NO	Indicate specific location of lump. Not Breast	US CHEST	76604
BREAST/ AXILLA 	Palpable lump, abnormal prior imaging	Lymph nodes & axilla area	NO		US AXILLA BILATERAL SOFT TISSUE	76882
					US AXILLA RIGHT SOFT TISSUE	
					US AXILLA LEFT SOFT TISSUE	
	Palpable lump, abnormal prior imaging, focal pain, Abscess	Targeted area of concern in the breast. If patient is 30 years or older, also order mammogram	NO	US performed first if lactating, pregnant or 29 yrs or younger. Mamm if needed. Indicate specific location of lump or area of concern. If lactating, express milk just prior to exam.	US BREAST BILATERAL LIMITED	76645
					US BREAST RIGHT LIMITED	
					US BREAST LEFT LIMITED
